Co-author with Professor Jin Chenglu

Academic Employment

G-Cubed Modeling Consultant

April 2024 – Present

McKibbin Economic Software Group (advised by DisP. Warwick McKibbin and Geoffrey Shuetrim) Canberra, Australia

- The G-Cubed model is an economic model used by central banks worldwide. My responsibilities include cleaning and processing data, identifying computational and forecasting issues, and retrieving via Python from various APIs (IMF, World Bank, OECD, UN, Ember, etc.) for normalization and integration into the model. I also address and resolve user inquiries from the Federal Reserve, the Reserve Bank of Australia, and the Australian Treasury.

Research Assistant

September 2024 – Present

ZUFE Zhejiang Research Institute - UCASS

Hangzhou, China

- Participated in writing grant research proposal for Prof. Jin's 2025 Chinese National Social Science Foundation discovery project. Engaged in research and analysis on topics in financial economics, asset pricing, and horizon effects in Chinese and global financial markets. Additional responsibilities include data collection, data processing, and contributing to research reports and academic papers under the supervision of Prof. Jin.

Research Assistant

January 2025 – Present

The Digital Finance CRC - UTS (advised by Prof. Talis J. Putnins)

Sydney, Australia

- Investigating illicit activities in cryptocurrency markets, focusing on decentralized market phenomena such as money laundering, wash trading, sandwich attacks, and rug pull events. Developing a research paper on the financial integrity index for decentralized markets to quantify unconventional blockchain transactions and analyze their potential connectedness with traditional financial systems.

Industry Employment

Investment Banking Department, Assistant Manager Intern

February 2022 – June 2022

Huatai United Securities Co.

Nanjing, China

- Assisted local governments in debt financing through multiple investment banking vehicles and participated in the issuance process of corporate bonds for enterprises such as Zhenjiang Municipal Construction Group and Suzhou High-tech Group. During the project, I was responsible for organizing and managing relevant documents and materials, while gaining the insights of the challenges and risks associated with Chinese local government debt issues.

Corporate Finance Department, Assistant Client Manager Intern

June 2020 – September 2020

Pudong Branch, Bank of Shanghai

Shanghai, China

- Participated in supply chain finance projects, providing inclusive credit support to enterprises in the Zhangjiang High-tech Park through a collaboration between Bank of Shanghai and Pudong Venture Capital Fund. I was responsible for managing operating capital loans and foreign exchange settlement services totaling RMB 700 million for Foxconn and its affiliated companies.
